Appointments ASSOCIATE PROFESSOR, MCGILL UNIVERSITY Montreal, Canada
2017–2023: Associate Professor, jointly appointed in the Institute for Health and Social Policy (IHSP) and the School of Environment
2018: Visiting Professor, University of British Columbia
2011–2019, 2024–: Associate member in the Department of Economics, McGill
2011–2017: Assistant Professor, jointly appointed in the IHSP and the School of Environment

INSTITUTE FOR RESOURCES, ENVIRONMENT AND SUSTAINABILITY, UBC
Feb-July 2011: Postdoctoral researcher.

CANADIAN INSTITUTE FOR ADVANCED RESEARCH (CIFAR) / UBC ECONOMICS
2009–2011: CIFAR Global Scholar in Social Interactions, Identity, and Well-being research programme.

UNIVERSITY OF CALIFORNIA, BERKELEY Berkeley, California
November 2000 - February 2002: Postdoctoral appointment in space physics.

Education UNIVERSITY OF BRITISH COLUMBIA Vancouver, Canada
January 2009: PhD Economics.

STANFORD UNIVERSITY Stanford, California
January 2001: PhD Applied Physics.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY Cambridge, Massachusetts
June 1995: S.B. Physics (with humanities concentration in French).

Distinctions 2023: Appointed Research Affiliate of the Oxford Wellbeing Research Centre
2023: Research Fellow Award (International Society for Quality-of-Life Studies)
2023: Appointed Research Fellow of the Centre interuniversitaire de recherche en économie quantitative (CIREQ)
2018: Induction to the Global Young Academy
2012: McGill delegate to the Universitas 21 Early Career Researchers Workshop, *Merging Theory into Practice: Ecological Urban Design* (Shanghai Jiao Tong University, Shanghai)
2009-2011: Global Scholar of the Canadian Institute for Advanced Research
2005: Selection for Summer School on Development Economics at the Banff Centre (Bureau for Research and Economic Analysis of Development, Harvard University)
2004-2007: SSHRC Canada Graduate Scholarship (Doctoral)
2003: Graduate Entrance Fellowship, University of British Columbia
2002: Union of Radio Science International (URSI) Young Scientist Award
2002: Elected Associate Member of URSI Commission H
2000: U.S. National Science Foundation Antarctic Service Award Medal
1999: Selection for the 1999 NASA Summer School for High Performance Computational Earth and Space Sciences at the NASA Goddard Space Flight Center's Earth and Space Data Computing Division.
1996: Canadian Federation for the International Space University: Full scholarship for the 1996 Summer Session of ISU in Vienna.
1995: Election to Sigma Xi (Scientific Research Honor Society)
1994: National Undergraduate Fellow in Plasma Physics and Fusion Engineering (U.S. DOE, Princeton Plasma Physics Lab)

Boards and Committees

- Director of the *World Well-being Panel*, 2023–
- Founder and President, *Canadian Happiness Economics Research Group* (Canadian Economics Association), 2022–
- Leadership Team (and P.I.), *Canadian Wellbeing Knowledges Network*, 2022–
- Advisory Committee on a Quality of Life Index for the City of Montreal, 2017–2020
- Task Force of Academic Experts on Carbon Neutrality, McGill University, 2017.
- McGill Sustainability Projects Fund (SPF) Governance Council, 2016–2017, 2018–2020.
- Chair, Scientific Committee, international conference on “Building better lives”, 2014–2015.
- Director search committee, McGill School of the Environment, 2012
- Scientific Committee, fourth conference of the Sustainable Consumption Research and Action Initiative (SCORAI), Worcester, Massachusetts, June 2013
- UBC representative on Vancouver’s Greenest City 2020 External Advisory Committee, 2010
- UBC Department of Economics Faculty Hiring Committee (PhD representative), 2006-2007
- Cecil and Ida Green Visiting Professorship Committee (UBC), 2006-2008
- Board of Directors, Green College Dining Society, a 0.5M\$/year catering and dining service at UBC’s Green College, 2005-2006

Patent

Matthew Brown, Christopher Barrington-Leigh, Christopher Porter, and Neil Gentleman, “*Systems and methods for predictive building energy monitoring*,” European patent 10196723.0-2213, USA patent 12/646764. This data-driven prediction algorithm for building energy use is a core technology in the energy monitoring and optimisation system of Pulse Energy (subsequently EnerNOC Inc.), installed in thousands of commercial buildings worldwide.

Convened conferences

Well-being and sustainability, UBC, 2009. Attendees included researchers from numerous academic departments, elected city councillors and staff from four cities, policy makers from health authorities in Victoria and Vancouver, representatives of a credit union and a number of local NGOs, and a journalist to discuss the implications of well-being research for ecological sustainability and related policy challenges.

Policies for Better Lives: Strategies for life satisfaction and human wellbeing, May 2021. 385 participants, international expert panels, closing keynote by Honourable Minister Fortier. See lifesatisfaction.ca

Wellbeing Ahead! A Canadian Wellbeing Knowledges Network (CWKN) Gathering, Ottawa, April 2023. Private in-person meeting of the CWKN, including 75+ attendees from across Canada. VIP guests included Honourable Minister Fortier, Senator Greenwood, and Chief Statistician Anil Arora.

Research Grants

2024-2026	The Urban Sustainable Transport Lab (Bieler Ignite Grant)	\$50,000	Co-P.I.
2022-2027	Life satisfaction and mental health after the COVID-19 outbreak: Identifying their changes and linked characteristics in a longitudinal community-based study (SSHRC Insight Grant)	\$333,239	Co-I
2022-2023	L'intégration de la santé et du bien-être dans les analyses d'impact dans le Nord 3e Appel à projets conjoint Institut nordique du Québec (INQ) et Sentinelle Nord (SN), LOI stage	\$10,000	Co-I
2022-2024	Street network sprawl and environmental and social outcomes in Canada (Bieler Ignite Grant)	\$50,000	P.I.
2022	Environmental collective action problems: a database of solutions (Bieler URA)	\$6,000	P.I.
2022	Beyond GDP — Metric Feasibility Study (MITACS Accelerate)	\$15,000	P.I.
2022-2023	Canadian Wellbeing Knowledge Network (SSHRC CG)	\$67,000	P.I.
2021	Street network sprawl, environment, and wellbeing in Canada” (Bieler URA)	\$6,000	P.I.
2021-2022	Understanding collective action problems as ubiquitous opportunities for success (McGill Internal Social Sciences and Humanities Development Grant)	\$5,000	P.I.
2019-2022	How do Household Energy Interventions Work (Health Effects Institute)	\$1,019,956	Co-I.
2018-2022	Air Pollution, Indoor Temperature, & Health Impacts of the Beijing Coal Ban and Heating Stove Replacement (CIHR Project Scheme)	\$952,424	Coll.
2017-2021	“Pathways to healthy cities” (Wellcome Trust)	£5,000,000	Coll.
2017-2021	Evaluating sustainable household energy transitions in a large-scale program in Beijing, China (SSHRC IDG)	\$74,966	Co-I.
2016-2017	Policy effectiveness and household economic effects of coal-to-electricity home heating transition in Beijing province (McGill Social Sciences and Humanities Emerging Scholars Accelerator)	\$10,000	P.I.
2016-2022	“Global urban sprawl, climate policy, and well-being” (SSHRC Insight Grant)	\$267,179	P.I.
2016	“Pathways to healthy cities” LOI for Wellcome Trust “Our Planet, Our Health” up to £10M grant	£29,800	Coll.
2014	Geographical information systems processing: understanding urban form (MITACS Globalink)	Indirect	P.I.
2014	“Experimental economics software development,” with Francisco Alvarez-Cuadrado (Arts Undergraduate Research Internship Awards)	\$2,000	Co-I
2013-2015	“Interdependent Preferences and Subjective Well-Being: An experimental approach,” with Francisco Alvarez-Cuadrado (SSHRC IDG)	\$73,996	Co-I
2013-2015	Measurement and analysis of urban well-being (IHSP internal seed grant)	\$19,300	P.I.
2013-2014	“Carbon pricing and the path-dependence of urban sprawl” (Sustainable Prosperity’s Research and Policy Network SSHRC Strategic Knowledge Cluster Grant)	\$8,000	P.I.
2012-2016	“Stratification socio-économique du bien-être subjectif: une étude de quatre pays” (FQRSC New Researcher grant)	\$39,600	P.I.
2012-2015	“Socioeconomic stratification of subjective well-being” (SSHRC IDG) nominated for 2012 SSHRC Aurora Prize	\$74,871	P.I.
2012-2015	“Accounting for international differences in life satisfaction: a global vignette study” (McGill Internal Social Sciences and Humanities Development Grant)	\$5,000	P.I.
2010-2011	“Sustainable water and sanitation in growing urban areas,” with Öberg, G. and eight others, (Martha Piper Research Fund)	\$25,000	Co-I
2009-2014	“Climate Justice Project” (SSHRC Community-University Research Alliance)	\$1M	Coll.

University Teaching

McGILL UNIVERSITY

2014–2016, 2018–2023: ENVIRONMENT, SOCIETY, AND SUSTAINABILITY (ENVR201)

2012, 2012, 2013, 2021–2023: ENVIRONMENTAL RESEARCH METHODS (ENVR301)

2019, 2020 autumns: INTERDISCIPLINARY APPROACH TO ENVIRONMENT AND SUSTAINABILITY (ENVR615): co-designer and instructor of **new course**

2014, 2019 autumns: ECONOMICS OF WELL-BEING (ECON430 and ENVR430): designer and instructor of **new course**

2018: ENVIRONMENTAL RESEARCH (ENVR401)

2015, 2016: ENVIRONMENTAL SEMINAR (ENVR650, ENVR652)

2012, 2013: QUANTITATIVE THINKING IN ENVIRONMENT (as ENVR380): designer and instructor of **new course**

2011, 2012, 2013: Guest lectures on the economics of climate change in THE GLOBAL ENVIRONMENT (ENVR200)

UNIVERSITY OF BRITISH COLUMBIA ECONOMICS DEPARTMENT

2009: Microeconomic policy (ECON 210): THE ECONOMICS OF CLIMATE CHANGE: designer and instructor of **new course**

STANFORD UNIVERSITY EDUCATION PROGRAM FOR GIFTED YOUTH

March 2002 - May 2003: Physics Instructor for four undergraduate courses.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

1993, 1994: Instructor, CLASSICAL MECHANICS (8.012, E.S.G.)

Past Employment (selected)

STANFORD UNIVERSITY DEPARTMENT OF ELECTRICAL ENGINEERING (PROF. UMRAN INAN)

September 1995 - September 2000: Research assistant; comprehensive involvement in upper atmospheric and space physics research programme (lightning-driven electrodynamics of upper atmosphere, ionosphere, and magnetosphere; VLF radio propagation), including instrument design and construction, extensive field work, theoretical modelling, grant proposal writing.

M.I.T. PLASMA FUSION CENTER (DR. JOHN RICE)

1994–1995 (September - June): Modelled neutral hydrogen density profiles for undergraduate thesis as part of project to increase efficiency of prototype fusion reactors.

GENERAL ATOMICS (TOKAMAK FUSION GROUP)

San Diego, California

1994 (June–August): Analysis and operation of plasma fusion power experiment.

M.I.T. CENTER FOR SPACE RESEARCH (PROF. ALAN LAZARUS)

1993 to 1994 (February to January): Helped identify a problem with data returned by MIT plasma instrument on IMP-8 spacecraft. Worked on modifying analysis software to overcome the problem and to update data reduction techniques. Analysis of solar wind data.

Invited addresses

- Working with Countries to Measure Wealth and Move Beyond GDP**, invited panelist along with Chief Statistician of Canada; Director of Environment, Global Affairs Canada; Lead Economist, World Bank; Chief Environmental Economist, UNEP. International Institute for Sustainable Development, Ottawa, 15 May 2024.
- Life evaluations around the world: Cultural and cognitive differences in the use of numerical subjective response scales**, London School of Economics, 19 April 2023.
- Economics of happiness: are the foundations robust?**, Department of Economics, UNR 5 December 2022
- Keynote speaker** for 2022 annual International Society for Quality-of-Life Studies (ISQOLS) conference, “Quality-of-Life for Resilient Futures: Sustainability, Equity, and Wellbeing,” Burlington, Vermont, 3-6 August 2022
- Response distributions around the globe: Cultural differences in cognitive evaluations of life**, Wellbeing Research & Policy Conference, Oxford 6–8 July 2022
- Redefining GDP: finding alternative metrics for assessing development** (panelist), OxFID 2022: Aurora: Redefining Progress and Navigating Transition, Oxford Forum for International Development, Oxford UK, Feb 26–27, 2022.
- Mesures du bien-être, de la satisfaction à la vie et du bonheur: un état des lieux**, Direction régionale de santé publique, Montreal, 9 March 2022.
- What can the life satisfaction approach do for policy?**, Escola Superior de Propaganda e Marketing (ESPM), Brazil, August 2021.
- Response Scales, Focal Values, and the Mis-Measurement of Subjective Well-Being**, Wellbeing Research Centre (University of Oxford) / Bennett Institute for Public Policy (University of Cambridge) conference on “Fundamental issues in the measurement of subjective well-being (SWB)”, February 2021.
- Wellbeing budgeting: Reframing policy around life satisfaction**, NCCHPP/CCNPPS webinar, 25 Nov 2020.
- Reframing policy around life satisfaction**, address and workshop for 25 elected officials, *Leadership and Legacy*, during the Livable Cities Forum Victoria, BC, 28 October 2019
- How the new science of happiness could – and must – change the world**, Vanier College, 24 October 2019.
- Trends and long-run implications of local street-network connectivity: a global census and analysis**, University of Chicago, 16 October 2019.

Measuring community well-being in Montreal and reframing policy, Ville de Montréal, 15 July 2019.

Re-Designing Government for Wellbeing, workshop for NewCities Foundation's Wellbeing Cities Forum, Montreal, 19 June 2019

Well-being, sustainability, and progress: how to frame policy, at *Beyond GDP: International Experiences, Canada's Options*, Dalhousie University, 23–24 May 2019.

Focal-value responses: the inter-personal and inter-cultural comparability of SWB, Canadian Institute for Advanced Research meeting, Vancouver, 9 June 2018.

Local road network connectivity changes as a characterization of global trends in urban form, University of British Columbia, 29 May 2018.

Some (mostly) good news on Happiness and sustainability, Dalhousie University's Environment, Sustainability, and Society lecture series, Halifax, 11 Jan 2018

Well-being and sustainability, Institut de Ciència i Tecnologia Ambientals (ICTA), University Autònoma de Barcelona, 19 Oct 2017.

Global distribution of satisfaction with life, Japanese-Canadian Frontiers of Science (JCFoS) Symposium, Okinawa, Japan, 3 Nov 2017.

Measuring community well-being in Montreal, Presentation to Ville de Montréal, 6 Jul 2017

Rising life satisfaction in Korea: does growth ever get the credit?, University of Sherbrooke Department of Economics, March 2015.

The future of monetary exchange systems, address to the Association des économistes québécois, Section Montréal, 2014 Nov 18

Happiness, neighbourhoods, and policy: subjective well-being in economics, address to *Regenerative Neighbourhood Project* workshop, UBC, Vancouver, 10 Sep 2014.

Social preferences, identity, and well-being: a modern economic account of human nature, 4th annual GEINH Colloquium, Université de Montréal, March 2014.

Experimental disentangling of social preferences, Social Interactions, Identity, and Well-being programme meeting, Canadian Institute for Advanced Research, Montreal, June 2013.

Urban sprawl: path-dependence and climate policy, Merging Theory into Practice: Ecological Urban Design, Universitas 21 Early Career Researchers Workshop, Shanghai Jiao Tong University, Shanghai, China, December 2012.

Invited speaker at workshop with staff of the Government of Québec and OECD, *Vers un indicateur Vivre mieux-québécois*, Québec City, May 2012

Invited speaker, *Exploring the Intersections between Poverty and Gender*, World Bank, Washington D.C., May 2012.

Well-being and social capital in Québec, industry/academic workshop with SECOR Consulting, Leger Marketing, UQAM, Université Laval, and others, Montréal, April 2012.

Relative Income and Happiness: A Global Study, Sustainable Consumption Research and Action Initiative (SCORAI) 3rd Workshop, Vancouver, March 2012.

Departmental seminars at McGill University, University of Queensland, University of Ottawa, Simon Fraser University, University of Edinburgh (all 2011).

Invited speaker at Canadian Centre for Policy Alternative's invitational think tank on *Prosperity Without Growth?*, March, 2010.

Invited panelist on *Macroeconomic Policy Goals: Growth in GDP, Sustainability & Wellbeing*, Canadian Economics Association Annual Meeting, Toronto, May 2009.

Invited panelist at Metro Vancouver *Future of the Region Sustainability Dialogues*, Surrey and North Vancouver, March and April, 2009.

Keynote address on *Diversity and Sustainability through Citizenship: Issues for Social and Economics Educators* at Eighth International Conference of the International Association for Citizenship, Social and Economics Education, Kelowna, June 2009.

Opening day address to Whistler Forum's *Leadership Sea to Sky*, Whistler, Dec. 2007.

Conference presentations (selected)

Cultural Differences in the Use of Subjective Response Scales, ISQOLS annual meeting, Rotterdam, Aug 2023.

Life evaluations around the world: Cultural and cognitive differences in the use of numerical subjective response scales, Luxembourg, 20 September 2023

Building a database of solved collective action problems, Global Young Academy Annual General Meeting and International Conference, Kigali, 2023.

Life satisfaction scales in China, Canadian Economics Association annual meetings, Winnipeg, 2023.

The Canadian Database of Happiness Coefficients, with Katja Lemermeier, Candian Economics Association annual meetings, Ottawa, June 2022.

Trends in conceptions of progress and well-being, Global Young Academy Annual General Meeting (online), June 2022.

Life satisfaction econometrics: Are we under-estimating the returns to education and income?, ISQOLS annual meeting, 2020.

Wellbeing, sustainability, and progress: what's needed to help governments be accountable to human experience?, ISQOLS annual meeting, 2020.

Future global scenarios for human life evaluations: Happiness in 2050, Candian Economics Association annual meetings, Banff, May 2019.

Will Beijing's ban on household coal burning improve air quality and well-being? (coauthors: Jill Baumgartner, Ellison Carter, Brian Robinson), Canadian Resource and Environmental Economics Study Group Annual Conference, Université du Québec à Montréal September 2018.

Do the Less Educated Report Higher Life Satisfaction?: Response Scales, Focal Values, and Mis-Measurement of Subjective Well-Being, American Economics Association annual meeting, Chicago, January 2017.

Estimating local road network connectivity at high resolution for all roads on planet Earth, 65th Annual North American Meetings of the Regional Science Association International, Vancouver, 10 Nov 2017

Road network sprawl: a global, dynamic analysis, 65th Annual North American Meetings of the Regional Science Association International, Vancouver, 10 Nov 2017

Three critiques of the econometrics of happiness: Are we underestimating the returns to education and income?, International Atlantic Economics Society meetings, Montreal, Oct 2017.

Do the less educated report higher life satisfaction?: response scales, focal values, and mis-measurement of SWB, CRDCN Conference, 31 October – 1 November 2016, Saskatoon.

Measuring progress and well-being: A comparative review of indicators, 2016 Impact Summit, September 2016, Washington, DC.

Korea's rapid growth and rapid rise in happiness: are they related?, Canadian Economics Association annual meeting, Ottawa, June 2016.

Short-Run Household, Industrial, and Labour Impacts of the Québec Carbon Market, Canadian Resource and Environmental Economics Study Group Annual Conference, University of Sherbrooke, October 2015.

Life satisfaction and domain satisfactions amid rapid economic growth: the case of South Korea, European Survey Research Association conference, Reykjavik, July 2015.

Moving beyond the discrete response in subjective scale survey questions, European Survey Research Association conference, Reykjavik, July 2015.

- Quantity or quantile? A global study of income, status, and happiness**, Canadian Economics Association annual meeting, Vancouver, May 2014.
- Carbon pricing and endogenous directed change in urban form**, Beijing Forum, Beijing, November 2013.
- Québec's Quiet Happiness Revolution Continues**, Canadian Economics Association 47th Annual Conference, Montréal, June 2013.
- Carbon pricing and the path-dependence of urban sprawl** (with Adam Millard-Ball), Association of Environmental and Resource Economists 3rd Annual Summer Conference, Banff, Canada, June 2013.
- "Sprawl in urban form: path-dependence and climate policy"**, Merging Theory into Practice: Ecological Urban Design, Universitas 21 Early Career Researchers Workshop, Shanghai Jiao Tong University, Shanghai, December 2012.
- "Relative income and happiness: A global study"**, International Society for Ecological Economics, Rio de Janeiro, June 2012.
- Economic inequality and subjective well-being**, Canadian Economics Association annual meeting, Ottawa, June 2011.
- Measuring well-being through repeated cross sections: the case of the Québec convergence, 1985–2008**, Canadian Economics Association annual meeting, Montreal, June 2010.
- Sustainable well-being and relative consumption effects beyond income**, SIRE workshop on Well-being, happiness and the environment, Stirling, UK, April 2010.
- Barrington-Leigh, C. P., **Life satisfaction, income, and sustainability**, Canadian Economics Association annual meeting, Toronto, June 2009.
- Veblen goods and neighbourhoods: endogenising consumption reference groups**, Canadian Economics Association annual meeting, Vancouver, June 2008.
- Empathy and emulation: life satisfaction and the urban geography of Veblen effects**, Canadian Economics Association annual meeting, Halifax, Nova Scotia, June 2007; also presented at the North American Regional Science Council meetings, Savannah, Georgia, USA, November 2007; and at Statistics Canada's Socioeconomic Conference Ottawa, 2008.
- Smith David, Liliana Lopez, R. P. Lin, C. P. Barrington-Leigh, **RHESSI Observations of Terrestrial Gamma-ray Flashes**, URSI National Meeting, Boulder, Jan 2005.
- Barrington-Leigh, C. P., V. P. Pasko, and U. S. Inan, **Non-spectral measurements of ionization processes in sprites**, URSI General Assembly, Maastricht, Netherlands, August 2002. [Presented by V. P. Pasko.]
- Barrington-Leigh, C. P., **Terrestrial Gamma-ray Flashes After CGRO: Prospects From HESSI**, *EOS Trans. AGU*, 82, 47, 2001.
